

OpenRunway®

# Clearer

Trouble-free departures and arrivals  
with OpenRunway®

OpenRunway® is an online weather forecasting package that will help you make confident weather-sensitive decisions so your runways stay open and your flights run to schedule. By providing all your essential weather information in one place and alerting you to changing conditions, you can plan ahead and reduce disruption all year round.

With increasing pressure on efficiencies, being able to mitigate the effects of the weather with OpenRunway® will give you a clear advantage.

## Key benefits

- Plan effectively and keep one step ahead of changing weather conditions, helping you to optimise operational efficiency
- Reduce costs by minimising unnecessary downtime and ensuring a more efficient use of resources
- Make better informed and more confident decisions, enabling you to run your operations as safely and smoothly as possible

## Expert knowledge

At the Met Office, we've been forecasting the weather for over 150 years. We're one of two World Area Forecast Centres and the only provider of low-level UK weather forecasts for the Civil Aviation Authority. With our knowledge and expertise you can be confident that OpenRunway® offers the very best weather information available.

## Working together

Over the last couple of years we've worked closely with some of the UK's leading airports to help understand the challenges you face and tailor OpenRunway® to your needs.

OpenRunway® has been designed to make weather information easier and quicker to interpret, aiding operational decision making throughout the year.

### OpenRunway® offers

- Colour coded hour-by-hour summary detailing current and forecast weather specific for your airport
- Bespoke thresholds that you can manage for your airport and individual runways
- Detailed graphs of current and expected conditions
- Easy to use map viewer with satellite and weather radar overlays to help you visualise forthcoming weather
- Access to information from runway sensors from Met Office installed systems or your existing provider
- Optional 0 to 5 day summary prepared by one of our aviation forecasters who interprets the conditions at your airport (also available via email or fax)
- Round the clock access to aviation forecasters for advice to assist your decision making

### Proven success

OpenRunway® successfully aids the operations of some of the UK's leading airports and airlines.

**“Operating the country's major airports is a huge responsibility, which is why we've chosen the Met Office's OpenRunway® service to be an integral part of our operations. We believe it will help us maintain superior safety levels, help keep our airports operational and minimise disruption to our customers.”**

Tim Hardy, Airside Director at BAA

Whatever the weather, OpenRunway® is on hand to help your airport or airline to run as safely and smoothly as possible.

For more information, or to arrange a demonstration, please call our 24-hour Customer Centre on **0870 900 0100**
