

NBC Shower Cabin

The inflatable shower cabin for NBC decontamination

This cabin can be used for the decontamination of personnel returning from a contaminated area. The initial decontamination can be carried out while still wearing NBC protective equipment (overall, mask, gloves, boots etc.). The interior of the shower tent offers a person wearing protective equipment adequate room for a careful shower, and is equipped with 11 all-round spray nozzles, which spray warm water

under pressure, if necessary containing decontamination agents.

Handling and assembly:

Economical to store. Low weight and compact pack dimensions. The shower tent can be carried on site to the point of use by hand. Thanks to the inflatable framework, it can be set up by one person with the aid of an electric blower in only 2.5 minutes, and in less than 60 seconds if using a compressed air cylinder.

Material and equipment:

- PVC-coated heavy fabric
- Inflatable frame
- Shower system integrated onto the tent

Stability:

If necessary, the stability of the shower cabin can be increased by two water-filled ballast tanks and fixing straps anchored to the ground.

Shower system:
The shower system is integrated into the tent and attached to the supporting frame. It also works without the outer tarpaulins. The 11 plastic nozzels and two spray

pistols are connected by a 4 m long polyurethane spiral hose.

Suction pump:
Water which collects on the tent floor is pumped out by the suction pump and transported outside into special tanks.

Data

Outer dimensions	
Length (cm)	303
Width (cm)	276
Height (cm)	287
Inner dimensions	
Length (cm)	250
Width (cm)	230
Height (cm)	250
Size of tent pack (cm)	90 x 120 x 54
Operating pressure (bar)	0.20
Weight (kg)	36
Material	PVC-coated fabric, 1,100 dtex

Standard contents:

- 4 ropes for wind-bracing
- 1 electric pump
- 1 suction unit
- 4 paletted baseplates
- 4 packing sleeves
- 1 repair set
- 11 spray nozzles
- 2 spray pistols
- 2 slide valves
- 1 suction pump
- 1 operating instructions with tabbed contents
