

# Rescue Tent

The inflatable rescue tent  
Inflatable tent structure, suitable for rapid employment, providing to the operative staff a tent solution for immediate use in space-saving dimensions.

Handling and assembly:  
Space-saving storage. Thanks to its little weight and small package dimensions it can be carried in a car trunk.

The inflatable frame can be erected in situ by means of a Co2-cylinder within 30 seconds.

Material and technology:

- Inflatable frame: coated polyurethan fabric.
- Cover: nylon water-repellent fabric
- Basin: high resistance PVC

#### Data

Dimensions	
Length (cm)	250
Width (cm)	400
Height (cm)	230
Outer dimensions packed	
Length (cm)	85
Width (cm)	50
Height (cm)	30
Weight (kg)	40
Inflations system	semi-automatic by means of Co2 cylinder
Materials	
Inflatable part	coated polyurethane fabric
Cover	nylon water-repellent fabric
Basin	high resistance PVC

Possibility of personalized serigraphy:  
on tent bag and tent cover
