Configurator-Hardware CHW-2000

The LEGIC advant Configurator Hardware CHW-2000 is a universal desktop reader to initialise, write and read LEGIC credentials.

The robust desktop reader CHW-2000 is suitable especially to initialise and analyse LEGIC credentials. Its design is optimised to hold various credential shapes like cards, keys and fobs, wristbands and watches, as well as mobile phones. The CHW-2000 can be operated with the LEGIC Configurator Software CSW-2000, the LEGIC Development Kit Software DKS-2000 or an alternative software available from a LEGIC partner. The integrated LEGIC advant reader module can be easily upgraded through the USB interface. Thus, new features are quickly available.
